

## Features and Benefits

### Rotary Tillers, Reverse Tine Rotation

#### RTR05 Series

Features	Benefits
<b>American made</b>	Many tillers are imported. American made means better parts availability.
<b>Gearbox Warranty</b>	2 Years on housing, seals, & bearings. (Shows our confidence in the product.)
<b>Working widths</b>	42" and 50" to meet specific customer needs.
<b>Tractor HP range</b>	17-25 HP
<b>Reverse tilling action</b>	Reverse action 'sucks' tiller into ground, does not walk on top of hard ground like forward rotation tillers can.
<b>Front deflector</b>	Front deflector is flexible to take the beating from rocks or debris.
<b>Formed rear deflector</b>	Keeps dirt in and leaves a level finish. Forming gives deflector additional strength. Adjustable deflector allows for various finish results.
<b>Adjustable skid shoes</b>	Control depth with seven adjustments.
<b>Solid rotor shaft</b>	1 3/4" Solid steel rotor shaft for strength.
<b>Double lip seal on rotor bearing</b>	Double lip seal helps keep the dirt out and the grease in.
<b>4 'C' shaped heat-treated tines per flange</b>	'C' Shaped tines require less HP to move through the ground.
<b>13" Rotor swing diameter</b>	For deep tilling and turning the soil over faster.
<b>5" Digging depth</b>	For deep soil penetration.
<b>Fully shielded shear pin or slip-clutch driveline</b>	Protects the gearbox and rotor shaft upon hitting obstructions. Slip-clutch saves having to replace shear-pins.
<b>Stamped chain cover</b>	Stamped forming gives the chain cover strength.
<b>#80 Drive chain enclosed in oil bath</b>	Heavy drive chain stretches less, and oil bath keeps wear to a minimum.
<b>Adjustable parking stand</b>	Allows for easy hook-up and storage.
<b>Clevis lower hitch</b>	Provides additional strength and easy one person hook-up.
<b>Fits Land Pride Quick-Hitch</b>	Allows for quick and easy one person hook-up. Additional PTO driveline may be required.
